Apple Printers: LaserWriter Support Under Windows 95 (12/95)

=====  
Article Created: 14 September 1995  
Article Reviewed/Updated: 5 December 1995

TOPIC -----

What Apple LaserWriters are supported under Microsoft Windows 95?

DISCUSSION -----

Microsoft Windows 95 ships with PostScript PPD files for most Apple LaserWriters including:

- Apple LaserWriter
- Apple LaserWriter Personal NT
- Apple LaserWriter II NTX
- Apple LaserWriter IIf
- Apple LaserWriter IIg
- Apple LaserWriter Plus
- Apple LaserWriter Pro 600
- Apple LaserWriter Pro 630
- Apple LaserWriter Pro 810
- Apple LaserWriter Select 360
- Apple Personal LaserWriter NTR

These PPD files were created and are supported by Microsoft.

Apple has released, to online services, Windows 95 PPD files for the following LaserWriter printers:

- Color LaserWriter 12/600 PS
- LaserWriter 16/600 PS

Apple has not created a PPD for the LaserWriter Select 310. However, other PPD files could easily be substituted.

These articles can help you locate the PPD software for the Color LaserWriter 12/600 PS and LaserWriter 16/600 PS mentioned here:

- "Where To Find Apple Software Updates" -- Lists online services for free Apple software updates.
- "Obtaining Apple Product Support in the USA" -- Lists 800 numbers and online services for software updates, Apple support information, and a subset of the Apple Tech Info Library.

Article Change History:

05 Dec 1995 - Included Apple released PPD files and where to get them.

25 Sep 1995 - Added information on Microsoft support.
